Profile

Detail-oriented Computer Science student with experience in developing user-centric web applications and automating business processes. Proficient in JavaScript, Python, Django and Microsoft Power Platform, with real-world exposure through internships and trainee roles. Demonstrated ability to analyze requirements, implement efficient solutions, and collaborate across teams. Strong communication and analytical skills with a keen interest in technology consulting and enterprise-scale solutions.

EXPERIENCE

Automation System Development (Google Apps Script / JavaScript), 55Carat - Developed a configurable data processing system using Google Apps Script to identify incomplete records and sync updates across datasets - Implemented efficient data handling and automated workflows with modular design and a custom UI, improving performance, accuracy, and reducing manual effort - Worked Closely with Sales and Customer support	01/2026 – Present Haridwar, Uttarakhand
Software Developer Trainee, Penthara Technologies - Developed and optimized responsive web interfaces using React.js, improving user experience and performance across multiple devices. - Collaborated with senior developers on Microsoft 365 projects and Power apps for Businesses, gaining hands-on experience in frontend development and cloud-based solutions.	01/11/2025 – 01/01/2026 Mohali, Punjab
Frontend Developer Intern, Prodesk IT - Building responsive, interactive web components using HTML, CSS, JavaScript, and React basics. - Collaborating with designers and backend developers for full- stack project delivery. - Practicing agile development and teamwork	01/06/2025 – 01/07/2025 Remote
Campus Ambassador, Hunch (Social Media App) - Promoted the company across campus events and online communities. - Learned the art of business communication and persuasive speech	01/05/2024 – 01/07/2024 Remote

EDUCATION

B.Tech in Computer Science, College of Engineering Roorkee CGPA: 8	2022 – Present
Intermediate (CBSE), Bhagirathi Vidyalaya Scored: 83.4%	01/03/2022
High School (CBSE), Bhagirathi Vidyalaya Scored: 82.4%	01/03/2020

TECHNICAL SKILLS

- JavaScript
- HTML
- Git & GitHub
- Figma UI/UX
- Django
- MS-900
- Power Apps
- Responsive Web Design
- Mongo DB
- ReactJS
- CSS
- Bootstrap
- Python
- Tailwind CSS
- SharePoint
- Data Structures
- SQL
- SDLC

PROFESSIONAL SKILLS

- Problem Solving
- Team Collaboration
- Attention to Detail
- Communication Skills
- Time Management
- Adaptability

PROJECTS

Daily Expense Tracker [🔗](#)

Technologies: React.js, Django, REST API, SQLite, Ollama (LLM), Python

- full-stack web app built using React js and Django that enables users to easily track and manage their expenses.
- It uses RESTful APIs and an optimized database for efficient data handling and real-time updates.
- The system also integrates AI using **Ollama** and Optical Character Recognition like **Tesseract OCR** to extract expense detail from pdf or excel files.

Crowd Surveillance via Drones [🔗](#)

Technologies: Python, OpenCV, Computer Vision, ML, CNN, Django, Web sockets

- Built a real-time drone-based surveillance system for detecting and tracking people from live video feeds.
- Implemented AI-based fire and weapon detection to enhance crowd safety and threat monitoring.
- Optimized video processing pipeline and frame handling for smooth, low-latency real-time performance.

Gym Management System

Technologies: React.js, JavaScript, HTML5, CSS3, Google Maps API, Google Sheets, N8N

- Developed a responsive web platform for gym Management, attendance and Fees Renewal
- Integrated Google sheets for live DB.
- Designed modular React components for better scalability and UI consistency.

Patient Management Dashboard System [🔗](#)

Technologies: Power Apps, SharePoint

- Built a patient management dashboard using Microsoft Power Platform.
- Automated patient tracking and doctor assignment workflows.
- Improved operational efficiency through process automation.

AWARDS

1st Place - Internal Hackathon 3.0, COER

3rd Place Internal Hackathon 2.0, COER

1st Place - intercollege Ideathon

Finalist - Mahakumbh Hackathon, IIIT Allahabad

Published 2 Patents on different Ideas for Managing Crowds

CERTIFICATIONS

- Python - University of Michigan
- Python Developer Training - MyJobGrow
- TCS ION Career Edge - Business Communication
- Web Development - Internshala
- Complete jQuery course - Udemy
- Technology Job Simulation - Deloitte
- Figma - Simplilearn
- Active English - Howard Institute of English and IELTS
- Basics of React - Internshala
- Data, Data Everywhere - Google
- Git & GitHub - Google

EXTRA CURRICULAR

Won Ideathon in Intercollege Competition

3rd place - English Poetry Competition COER

Participated in multiple quizzes and workshops

Been Part of multiple Group Discussions

LANGUAGE

Hindi

Native Language

English

C1 Level of Proficiency

Japanese

Limited Working Proficiency

ACCOMPLISHMENTS

Published 2 patents:

1. Real-Time ML. powered Drone Monitoring System for Crowd Management & Security Surveillance
2. AI-ASSISTED PERSON FINDING SYSTEM

Consistently maintained a strong academic record with a CGPA of 8
